## Math

\* We will model and record all the ways to take apart numbers within 10. For example:

9-0=0	9-4=5	9-8=2
9-1=8	9-5=4	9-9=0
9-2=7	9-6=3	
9-3=6	9-7=3	

\* Continue to practice subtraction (from 10 or less)

\* Review for the chapter 2 test.

\* Chapter 2 test on Friday.

## Language Arts

\* Meet with reading groups to read and make meaning at their level.

\* Practice making predictions before and during reading. Learn that good readers ask questions before and during reading. Practice these comprehension strategies as a class and in small group work.

\* Students will take a test on making predictions and identifying characters, setting, beginning, middle and end this week.

\* In writer's workshop the class will learn what an informational writing piece includes. Learn that an information piece is writing about what we know.

## Reminders

\* September reading calendars will need to be turned in on Monday, October 3rd. The goal is 500 minutes.

\* A new sight word list came home in Friday's green folder. Please practice these words at home.

## Science

\* Learn that the sun is a principal source of energy.
